Communication - Branding/name/description: UH Connor Whole Health is part of University Hospitals (UH), a comprehensive health system with annual revenues in excess of \$5.0 billion, 21 hospitals (including 5 joint ventures), more than 50 health centers and outpatient facilities, and over 200 physician offices located throughout 16 counties. UH's goal is to be the most trusted health care partner in Northeast Ohio and UH Connor Whole Health furthers this objective by working to strengthen relationships between patients and providers to improve outcomes. The Whole Health approach prioritizes compassionate care centered on the patient's entire well-being. The health care provider's goal is to equip and empower each patient to take charge of their physical, mental, and spiritual health in order to live a full and meaningful life. Linking the patient's larger purpose and life goals to their lifestyle allows clinical services, integrative medicine, and well-being programs to be delivered in a way that increases collaboration, motivation, and adherence to self-care and clinical needs.
